ITIS GALILEO GALILEI

# PROBLEMS AT SCHOOL

- Everybody has that teacher that we don't appreciate. Today we will listen to a story from a school in Italy.

■ In My class there was this math teacher that was really grumpy. He was good at teaching, he explained well but he always gave a lot of homework.

■ He was new at school, and he had got nearly 28 years old. In the beginning he wasn't very friendly but nothing more. After 2 months he became really strict and heartless.

---

When he questioned us he never let us talk and he put always bad marks. We tried lots of times to solve this problem but the situation got worse when he discovered we did a class reunion about him. He became more strict and rude. One time our teacher became really rude because there was a foreign classmate that he didn't understand our language very well and the teacher said to our classmate: "If you don't understand our language, return to your country." After that he stopped to explain and he only read from the book.

- Our friend was embarrassed and sad, the teacher had treated him badly. After that we decided to send a letter to the head-teacher.

# THE WORST TWO MONTHS AT SCHOOL

- The letter arrived to the head-teacher after 2 months because she was really busy. In this two months our teacher made us do a lot of difficult tests. The whole class took bad marks. And he became worse. We tried to make a reunion with other teachers and our parents but he have never come

- A DAY WE HAD TO GO TO A TRIP BUT WE NEEDED AN ALLOWING AND A TEACHER TO ACCOMPANY US, BUT UNFORTUNATELY ALL TEACHERS WERE BUSY WITH OTHERS CLASS AND THERE WAS ONLY THE MATH TEACHER THAT HE DIDN'T ALLOWED TO GO TO THE TRIP. ALL OTHERS CLASS HAD GONE AND THEY SAID THAT THERE WAS A GOOD EXPERIENCE AND REALLY FUNNY.

## AT THE HEAD-TEACHER

- Finally we met with the head-teacher and we explained our situation to her. She decided to go to speak to him face to face and she discovered lots of things. After this conversation the head-teacher told us the truth about him.

## IN THE END

- The head-teacher told us that our teacher has some family problems and he was really nervous for that. And he was waiting for a child and his nervous increases and before our class he had a bad class and one day one of his students went at the hospital in a trip and he took all responsibility.

## CONCLUSION OF THE STORY

- At the end our teacher took 3 days off and when he came back he apologized to us and our foreign classmate and he explained his situation and we forgave him. And he took us to another trip! Now we are in a good relationship with him and we think he is the best teacher.
